Annual TCC-SCC Event: 2016 Holiday Party

Date: Tuesday, December 13th, 2016

Location:
Radisson Hotel Roseville
2540 North Cleveland Avenue
Roseville, MN 55113
(651) 636-4567
Click here for a map

Agenda:

5:30-6:30	Registration and Social Hour
6:30-7:30	Buffet Dinner
7:30-8:15	Casino Round #1
8:15-8:45	Prize Drawing for Round #1
8:45-9:30	Casino Round #2
9:30-10:00	Prize Drawing for Round #2

Cost:

TCC-SCC Members: \$80.00
Non TCC-SCC Members: \$100 .00
Table of 8 Sponsor: \$560.00

Payments can be made on the TCCSCC website (www.tccscc.org).

Reservations:

Please call the Twin Cities SCC Hotline, 763-951-4083, to RSVP by Friday, Dec. 9th. If you are reserving for multiple attendees, please specify each by first name, last name and company of the attendee so we can have name tags for everyone. If RSVP is after the 9th, please contact Samantha Anderson at saanders@aveda.com.

Toys for Tots Fundraiser:

Bring a toy to donate for the Toys for Tots program and receive a free gift bag with cosmetic goodies!

Donations/Contributions:

Would you like to make a donation? We are now accepting donations of products for the Gift Bags and cash/gift cards for prizes. Thanks to all who have already donated! Visit the website at www.tccscc.org or check out page 6 for donation options.

SCC Twin Cities Chapter Chair Chat

Season's Greetings TCCSCC Members,

It has been an honor and privilege to serve as the Twin Cities Chapter Chair this past year. I would like to again thank you all for your support, trust, and participation throughout the year, and a special thanks for allowing me to lead the chapter in 2016. I have learned a great deal, and look forward to serving as Treasurer next year. Thank you for your continued trust in my serving on the board.

In November, we had a great speaker, John Little with Orchidia Fragrances, giving us a great fragrance 101 crash course on the implications of organic chemistry and how the reactions of the organic compounds in fragrance blends can cause trouble in formulas, and how to trouble-shoot some of the effects seen in formulas during development. It was another great technical presentation that concludes our educational meetings for the year. If you were unable to attend the November meeting and would like opportunity to get some education in fragrance chemistry, Orchidia will be hosting an event early next year in the Minneapolis area. More details on that event will be shared in the coming month or two.

As part of the November Meeting, we also installed the 2017 TCCSCC Board. Installed were: Samantha Guertin - Chair, Divyesh Patel - Chair Elect, Maggie Vold - Secretary, and Justin Steinke - Treasurer.

I look forward to serving again in 2017, and look very forward to joining Samantha, Divyesh and Maggie for yet another fun and educational season in the TCCSCC. Thank you to all who took time to vote and participate in the chapter.

Alas, with the end of the year approaching, we have right around the corner the TCCSCC Holiday Party. As has been the case in years past, we will be hosting the Holiday Party at the Radisson Hotel in Roseville, MN on December 13. As has been the tradition, the night will be a casino themed event, so please save the date. Also, in the event you need a hotel room, the hotel is taking reservations for the event, as rooms have been blocked specifically for us. Please find details about the meeting, including times, address, and opportunities for sponsorship in the Newsletter. Please RSVP by the 9th of December if you haven't already. We are also still accepting sponsorship of the event for those who would like to support the chapter and the raffle table. Please contact me if you would like to sponsor the event, or have any other questions.

Also to note, we are in the midst of planning the 8th Biennium Holistic Symposium to be held at the Earle Brown Heritage Center in Brooklyn Park, MN. The event will be held on March 21st, 2017. We are currently accepting Speaker Papers, as well as Supplier Booth Registrations. Please visit our website, www.tccscc.org, or contact myself for any questions about opportunities regarding presentation slots, supplier booth availability, and sponsorship opportunities.

Last, in case you are still unaware, we are on Linked In, so if you haven't already, please find us and link to the chapter. We are keeping people up to date on events and announcements via the Linked In page in addition to our monthly emails. Linked In profile is: Society of Cosmetic Chemists – Twin Cities Chapter. Also, don't forget to visit the TCCSCC website at www.TCCSCC.org for current information on the chapter, and as a way to sign up and pay for monthly meetings and sponsorships.

Thanks so much for the opportunity to represent and lead the chapter this year. It has truly been rewarding, and great to have seen each of you at our meetings and events. Thank you for your continued support of the chapter and keeping it healthy and well attended. You all make the chapter the success it has been and continues to be. I look forward to another year of participating and serving the great members of the TCCSCC.

All the best,

Justin Steinke

TCCSCC Holistic Symposium

Earle Brown Heritage Center

TWIN CITIES CHAPTER OF THE SOCIETY OF
COSMETIC CHEMIST

The Holistic Symposium

The Twin Cities Chapter of the SCC needs 2 lunch sponsors for the upcoming Holistic Symposium.

Lunch Sponsor is \$775 (2 sponsors) – Lunch is included with the Holistic Symposium. We usually get over 100 registrants for this event. The Twin Cities Chapter of the SCC will create a large poster with your company name and logo indicating your company is the Lunch Sponsor. Poster will be displayed near the lunch buffet table.

Make payment by check or PayPal. Make checks payable to Society of Cosmetic Chemists Twin Cities Chapter or via PayPal at tccscc.org.

For more information, please contact Gabrielle Damjanovic at gabrielle516@gmail.com.

TCC-SCC Holiday Party Contribution Request

The Twin Cities Chapter of the Society of Cosmetic Chemists would like to thank you for your support in the past. We would like to say "Thank you."

Every year the Twin Cities Chapter participates in the Toys for Tots program for the Twin Cities area.

How can you help and why are you being contacted?

Gift Bags have always been the big buzz at the annual holiday party. Past gift bags have included items from 3M, Aveda, Caldrea, Chanel, Greenway Labs, Kapra Cosmetics, Raining Rose, Thymes, Watkins, and many other fabulous products from other companies. We are asking you for any items you may be able to donate to put into our gift bag. We need at least 110 samples if possible to have enough for all of our attendees; last year we had over 90 cosmetic professionals attend the event.

If you are able to contribute samples of various products please let us know by contacting me or Debbie Carroccio (contact information below). Product contributions can be sent directly to Debbie at the below address. Thank you again for supporting your local chapter.

Eighth Biennial Holistic Cosmetic Symposium & Suppliers Showcase

SOCIETY OF COSMETIC CHEMISTS - Twin Cities Chapter

Save the Date!

**Holistic Symposium
March 21st, 2017**

**Earle Brown Heritage Center
Brooklyn Center, Minnesota**

Topics considered for presentations include: Organic Ingredients • Green Packaging • Natural Preservatives • Green Manufacturing • Formulating Green • Sustainable or Fair Trade Ingredients • Biodiversity and Ethical Sourcing • Marketing and Consumer Trends • Regulatory Updates

- Presentations to be given in the morning session
- Supplier Showcase to be open in the afternoon session

Please contact Justin Steinke for any questions: Justin.Steinke@JRWatkins.com

Come be a part of the SCC's original Green Symposium!

Formal invitations and full schedule of events and speakers to be sent out at the end of January 2017

Eighth Biennial Holistic Cosmetic Symposium & Suppliers Showcase

SOCIETY OF COSMETIC CHEMISTS - Twin Cities Chapter

Call for Papers

Holistic Symposium
March 21st, 2017

Earle Brown Heritage Center
Brooklyn Center, Minnesota

Authors are invited to submit titles and abstracts for
original papers to be presented in podium format.
All topics related to **Natural and Green Science** will be considered.

Topics of particular interest include: Organic Ingredients • Green Packaging • Natural
Preservatives • Green Manufacturing • Formulating Green • Sustainable or Fair Trade
Ingredients • Biodiversity and Ethical Sourcing • Marketing and Consumer Trends •
Regulatory Updates

Tradenames cannot be used in the abstract or presentation.

DEADLINE: December 27, 2016

Abstracts should be submitted via e-mail to Dawn Thiel: dawn.thiel@beraca.com

The Holistic Committee will review abstracts and select papers by January 13th, 2015.

Come be a part of the SCC's original Green Symposium!

For suppliers interested in participating in the afternoon showcase, a separate packet will be sent out in
November.

The Area III chapters of the National Society of Cosmetic Chemists: California SCC, Southwest SCC, Inter-mountain West SCC and Twin Cities SCC would like to host an Innovation in Hair Technology Webinar to their membership on December 13, 2016 at 8:30 am to 10:00 pm Pacific Time.

8:30 AM Pacific - Combing Cream Technologies: A New Growth Engine in the Hair Care Market

Trends in the Personal Care marketplace are continuously evolving, and the sources of these trends are equally dynamic. Historically, trends have been pushed out to consumers by finished goods companies. Furthermore, the trends had migrated in fairly predictable patterns, from developed countries into developing regions. However in recent times, we have seen the consumer gain a greater influence in driving trends and innovations, and these innovations can increasingly come from anywhere on the globe.

The rise of the “Combing Cream” in today’s hair care marketplace is an excellent example of these changes in the marketplace. Combing creams evolved as a technology due to demand in the marketplace by consumers for such products. Combing Creams represent a large portion of the conditioner market in their birthplace - Brazil, and they are rapidly spreading into North America and the rest of the world.

In this session, we will discuss combing cream technologies, and their position in the hair care marketplace. We will analyze the evolving market for combing creams, including the reasons for their genesis as well as the factors that are fueling their growth. We will also share consumer insights gained from focus studies which identify the critical “must-haves” for this technology as well as areas where further improvements are needed. Finally, we will discuss the key ingredient technologies that deliver the performance sought by combing cream customers, as well as various approaches to deliver these ingredients.

Scott Cardinali is currently the North American Technical Business Development Manager at Croda Inc, in Edison, NJ. He is responsible for supporting the North American Personal Care sales team in initiatives to identify emerging and unmet customer needs and to recommend appropriate technology solutions, with a particular focus on hair care. Scott has 32 years of industry experience, having also worked in R&D positions at Croda, National Starch, Kline & Co., and Unilever Research. He has a B.A. in Chemistry from Cornell University, and a M.B.A. in marketing from New York University.

9:00 AM Pacific - Optimizing Haircare Formulations

Perry Romanowski has been formulating the smartest cosmetic products and creating solutions to solve consumer problems since the early 1990’s. He most recently worked in the hair care innovation group at Alberto Culver. Additionally, he has written and edited numerous articles and books, taught continuing education classes for industry scientists, and developed successful websites. He is currently Vice President at Brains Publishing and is responsible for producing Chemists Corner and other science educational websites & products. He holds the official Guinness World Record for the fastest 50 mile run while juggling. He also strives to be the most famous cosmetic chemist. You can connect with Perry on Twitter.

9:30 AM Pacific - Formulating Clear Conditioning Shampoos

Clear, conditioning shampoo has a unique attractiveness in that its vibrant color and clear gel texture has significant appeal to consumers. But formulating high performance clear conditioning shampoos with definable and superior conditioning properties can be a challenge. The use of currently the most popular conditioning and/or texturizing ingredients can bring cloudiness to the formulation, which dramatically reduces this visual appeal. In this presentation, it will be shown how to create high performing conditioning shampoos using novel, patented polymer technology. In addition to this, how to create sulfate-free and silicone-free, a major trend, and cost-effective clear conditioning shampoos will be provided.

Judy Zhuang is currently the Director, Personal Care Application at INOLEX, Inc. In this capacity, Judy directs all activities within the group and has responsibility developing new product formulations that can display the benefits INOLEX ingredients can confer to formulations in virtually all personal care product classifications. Additionally, the Personal Care Applications group under her direction develops scientific data to show why and how they work, as well as participating in many aspects of the new product development and commercialization process at INOLEX, and also provides important after-sales support. Judy possesses over 20 years of experience in the Personal Care industry holding previous positions at IFF, Symrise, BASF, and EMD before joining INOLEX.
